1 Compilation environment description

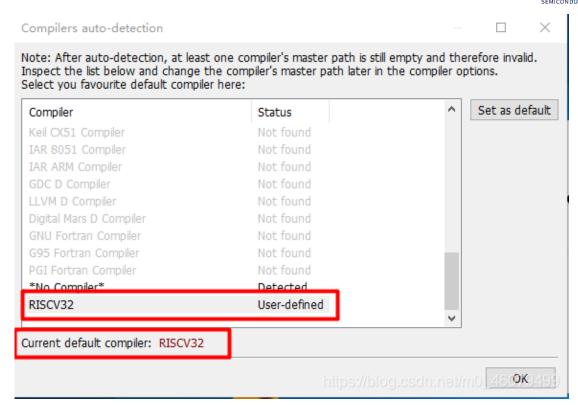

The development environment for the GW3323 chip is "Codeblocks.exe". For the installation package, "codeblocks-20.03mingw-setup.exe.". Install CodeBlocks first, then install RV32-Toolchain (When you install ToolChain, the configuration-related compilation environment is registered with CodeBlocks)

In the development, we generally use serial port printing or GPIO port and logic analyzer for debugging, breakpoint debugging and simulation are not currently supported.

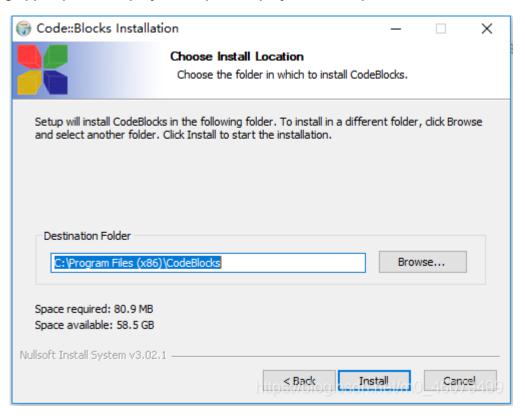

1.1 CodeBlock(IDE): (codeblocks-17.12)Code editor, which calls the tool provided in the ToolChain when compiling the link. Finally, the dcf file for burn is generated.

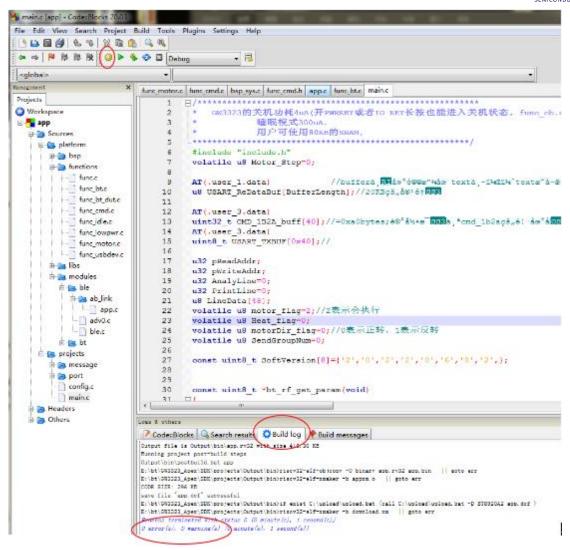

1.2 Drag app.cbp into the project to open the project for compilation

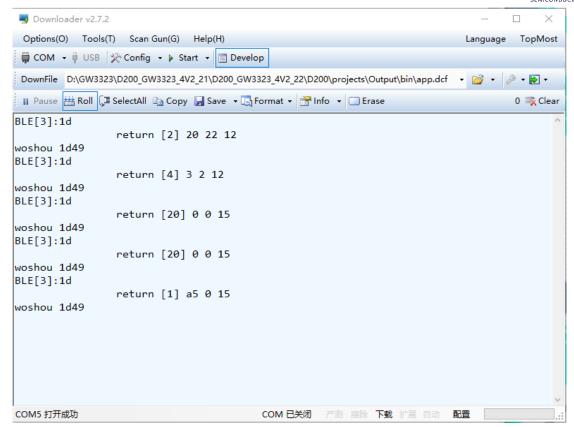

1.3 ToolChain: (RV32-Toolchain-Setup_vxxx)Contains RISC-V compiler, Bin file conversion tool. etc.

```
段 RV32-Toolchain-Setup.exe 2021/12/30 20:48 应用程序 24,977 KB
```

1.4 Downloader: the function of serial port printing tool software, can be used for developers debugging, CP210x_Windows_Drivers: the Xlink burner driver.

CP210x_Windows_Drivers.rar	2022/3/11 17:08	WinRAR 压缩文件	3,656 KB
Downloader_v2.7.2.zip	2022/3/11 16:38	WinRAR ZIP 压缩	2,488 KB

Developers generally select "Develop" in the following figure, so that they can easily view the printing information after downloading.

2 **Project Introduction**

Put the file "GW3323_SDK_BTtoUart_20221221\app\projects\app.cbp" into the "codeBlocks" development tool.

3 **Download instructions**

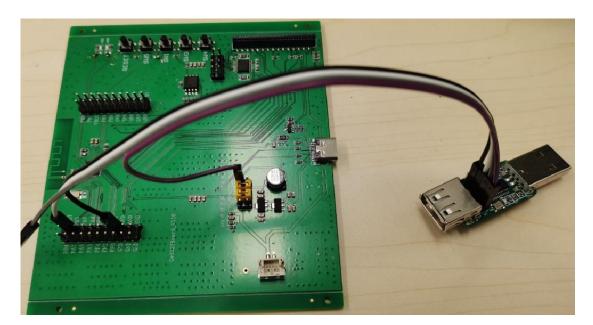

1. Connect the development board with the serial port module of CP2102 or Geehy serial port module.

Geehy XLink modue: RX---->Link GW3323 PB3;

CP2102 Serial port module: TX -- string 200R -- RX --->Link GW3323 PB3;

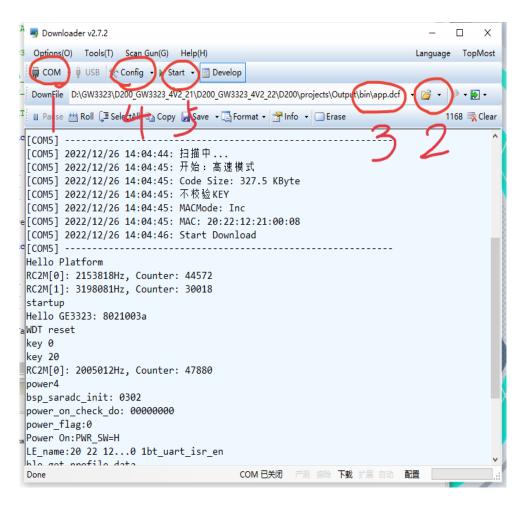

2. The three wires of the serial port module (GND,RX,3.3V) are connected to the development board (GND,PB3,3.3V), and the other end is connected to the USB port of the computer.

- 3. After the serial port is connected, the icon of the serial port turns black, indicating that the serial port is connected. Otherwise, check whether the hardware of the serial port is faulty or the CP210x Windows Drivers is incorrectly installed.
- 4. Then select the project burning file. Then select to start burning. As shown below:

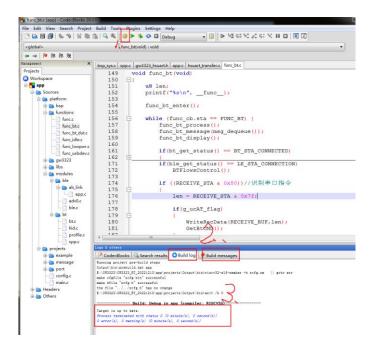

4 Example Code presentation

- 1. The default routine (GW3323_SDK_BTtoUart_20221221.rar) the project is "sending the data received by Bluetooth to the serial port (PB2), and sending the data received by serial port (PB1) to the phone via Bluetooth".
- 2. If you want to change the project, then burn, must "0 error 0 warning".

- 3、Function about Bluetooth
- 3.1 Send the data by SPP protocol through the serial port (PB2):

Statement

This document is formulated and published by Geehy Semiconductor Co., Ltd. (hereinafter referred to as "Geehy"). The contents in this document are protected by laws and regulations of trademark, copyright and software copyright. Geehy reserves the right to make corrections and modifications to this document at any time. Please read this document carefully before using Geehy products. Once you use the Geehy product, it means that you (hereinafter referred to as the "users") have known and accepted all the contents of this document. Users shall use the Geehy product in accordance with relevant laws and regulations and the requirements of this document.

1. Ownership

This document can only be used in connection with the corresponding chip products or software products provided by Geehy. Without the prior permission of Geehy, no unit or individual may copy, transcribe, modify, edit or disseminate all or part of the contents of this document for any reason or in any form.

The "极海" or "Geehy" words or graphics with "®" or "TM" in this document are trademarks of Geehy. Other product or service names displayed on Geehy products are the property of their respective owners.

2. No Intellectual Property License

Geehy owns all rights, ownership and intellectual property rights involved in this document.

Geehy shall not be deemed to grant the license or right of any intellectual property to users explicitly or implicitly due to the sale or distribution of Geehy products or this document.

If any third party's products, services or intellectual property are involved in this document, it shall not be deemed that Geehy authorizes users to use the aforesaid third party's products, services or intellectual property, unless otherwise agreed in sales order or sales contract.

3. Version Update

Users can obtain the latest document of the corresponding models when ordering Geehy products.

If the contents in this document are inconsistent with Geehy products, the agreement in thesales order or the sales contract shall prevail.

4. Information Reliability

The relevant data in this document are obtained from batch test by Geehy Laboratory or cooperative third-party testing organization. However, clerical errors in correction or errors caused by differences in testing environment may occur inevitably. Therefore, users should understand that Geehy does not bear any responsibility for such errors that may occur in this document. The relevant data in this document are only used to guide users as performance parameter reference and do not constitute Geehy's guarantee for any product performance.

Users shall select appropriate Geehy products according to their own needs, and effectively verify

and test the applicability of Geehy products to confirm that Geehy products meet their own needs, corresponding standards, safety or other reliability requirements. If loses are caused to users due to the user's failure to fully verify and test Geehy products, Geehy will not bear any responsibility.

5. Legality

USERS SHALL ABIDE BY ALL APPLICABLE LOCAL LAWS AND REGULATIONS WHEN USING THIS DOCUMENT AND THE MATCHING GEEHY PRODUCTS. USERS SHALL UNDERSTAND THAT THE PRODUCTS MAY BE RESTRICTED BY THE EXPORT, RE-EXPORT OR OTHER LAWS OF THE COUNTIRIES OF THE PRODUCTS SUPPLIERS, GEEHY, GEEHY DISTRIBUTORS AND USERS. USERS (ON BEHALF OR ITSELF, SUBSIDIARIES AND AFFILIATED ENTERPRISES) SHALL AGREE AND PROMISE TO ABIDE BY ALL APPLICABLE LAWS AND REGULATIONS ON THE EXPORT AND RE-EXPORT OF GEEHY PRODUCTS AND/OR TECHNOLOGIES AND DIRECT PRODUCTS.

6. Disclaimer of Warranty

THIS DOCUMENT IS PROVIDED BY GEEHY "AS IS" AND THERE IS NO WARRANTY OF ANY KIND, EITHER EXPRESSED OR IMPLIED, INCLUDING, BUT NOT LIMITED TO, THE WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE, TO THE EXTENT PERMITTED BY APPLICABLE LAW.

GEEHY WILL BEAR NO RESPONSIBILITY FOR ANY DISPUTES ARISING FROM THE SUBSEQUENT DESIGN OR USE BY USERS.

7. Limitation of Liability

IN NO EVENT UNLESS REQUIRED BY APPLICABLE LAW OR AGREED TO IN WRITING WILL GEEHY OR ANY OTHER PARTY WHO PROVIDE THE DOCUMENT "AS IS", BE LIABLE FOR DAMAGES, INCLUDING ANY GENERAL, SPECIAL, DIRECT, INCIDENTAL OR CONSEQUENTIAL DAMAGES ARISING OUT OF THE USE OR INABILITY TO USE THE DOCUMENT (INCLUDING BUT NOT LIMITED TO LOSS OF DATA OR DATA BEING RENDERED INACCURATE OR LOSSES SUSTAINED BY USERS OR THIRD PARTIES).

8. Scope of Application

The information in this document replaces the information provided in all previous versions of the document.
